

Thrust	: Forward	9,0 kg
	: Lateral	9,0 kg
	: Vertical	9,0 kg
Max depth	: 100 mtr	
Length	: 338 mm	
Length with Manip	: 500mm	
With	: 338 mm	
	: 575 mm with extra vertical thrusters	
Height	: 254 mm	
Camera #1	: 1080P 0,01Lux	
Lights 4x	: 1500 Lumens each dimmable	
Auto functions	: Depth, heading	
Sensor	: Depth, heading , temperature	
Weight	: 11 kg (Neutral in water)	
Max speed	: 0 – 1,5 mtrs/sec 3 knots	

Battery Life

Battery life : 2 hours W/ 18AH Lithium-ion battery
 Battery can be changed within 30 seconds and we carry 4 battery's with the system.

Umbilical

Diameter	: 7,6 mm
Working strength	: 45 Kg
Breaking strength	: 160 Kg
Length	: 300 mtr
Weight	: slightly buoyant in fresh water

This Robotix Rov is modular, and configurable in several configurations. This makes this Rov ideal to gain acces in small places or pipelines. Please feel free to contact us so we can search for possibility's to inspect the object of your choice.
